

This week's news...

We have already begun a range of activities to enrich and enhance the children's learning:

- Year 5 began their swimming lessons on Thursday. Sessions take place every week on a rolling programme for all 4 classes.
- The Animated Objects Theatre Company visited Year 2 classes this week to begin a project on 'Stop/Start Animation'. For those of you who are unfamiliar with this it is animation in the style of Wallace and Gromit! It is a year-long project in which the children work in groups to produce their own short animation film. The children always enjoy this project and get very excited to watch their completed films!

What's happening next week...

- Year 3 children will be embarking on their first visit out of school next week! They will be learning about what it means to live in Scarborough Town. They will be visiting the beach to do a study of the foreshore, looking at geographical features of our sea front and collecting vocabulary for their writing topic 'A Stormy Harbour'.
- Year 2 children will also be venturing out in a trip to the Railway Station to learn how to follow directions and make maps as part of their 'All Aboard' topic.

Reminders...

- Please could we just remind everyone to keep children safe on the Key Stage 2 playground when picking up children at the end of the day. Although we appreciate that children like to climb on railings and walls this is something which is very dangerous and obviously gives children mixed messages as we do not allow this during the school day.
- Recently we have seen an increase in fashion jewellery being worn at school, in line with our uniform policy, we would kindly ask that children do not wear such items for school.

And Finally...

- We are really looking forward to the Reception children joining us full time from Monday. They have settled well and already made lots of new friends.
